

INTRACONNECT

Connection between IT infrastructure of the same customer hosted in a KIO Data Center. We interconnect your IT infrastructure in order to bring agility to your business processes by offering a copper or fiber optic connection.

Use Case

- ▶ Connection between racks or IT cages of the same customer.
- ▶ 100% dedicated connectivity.

Commercial

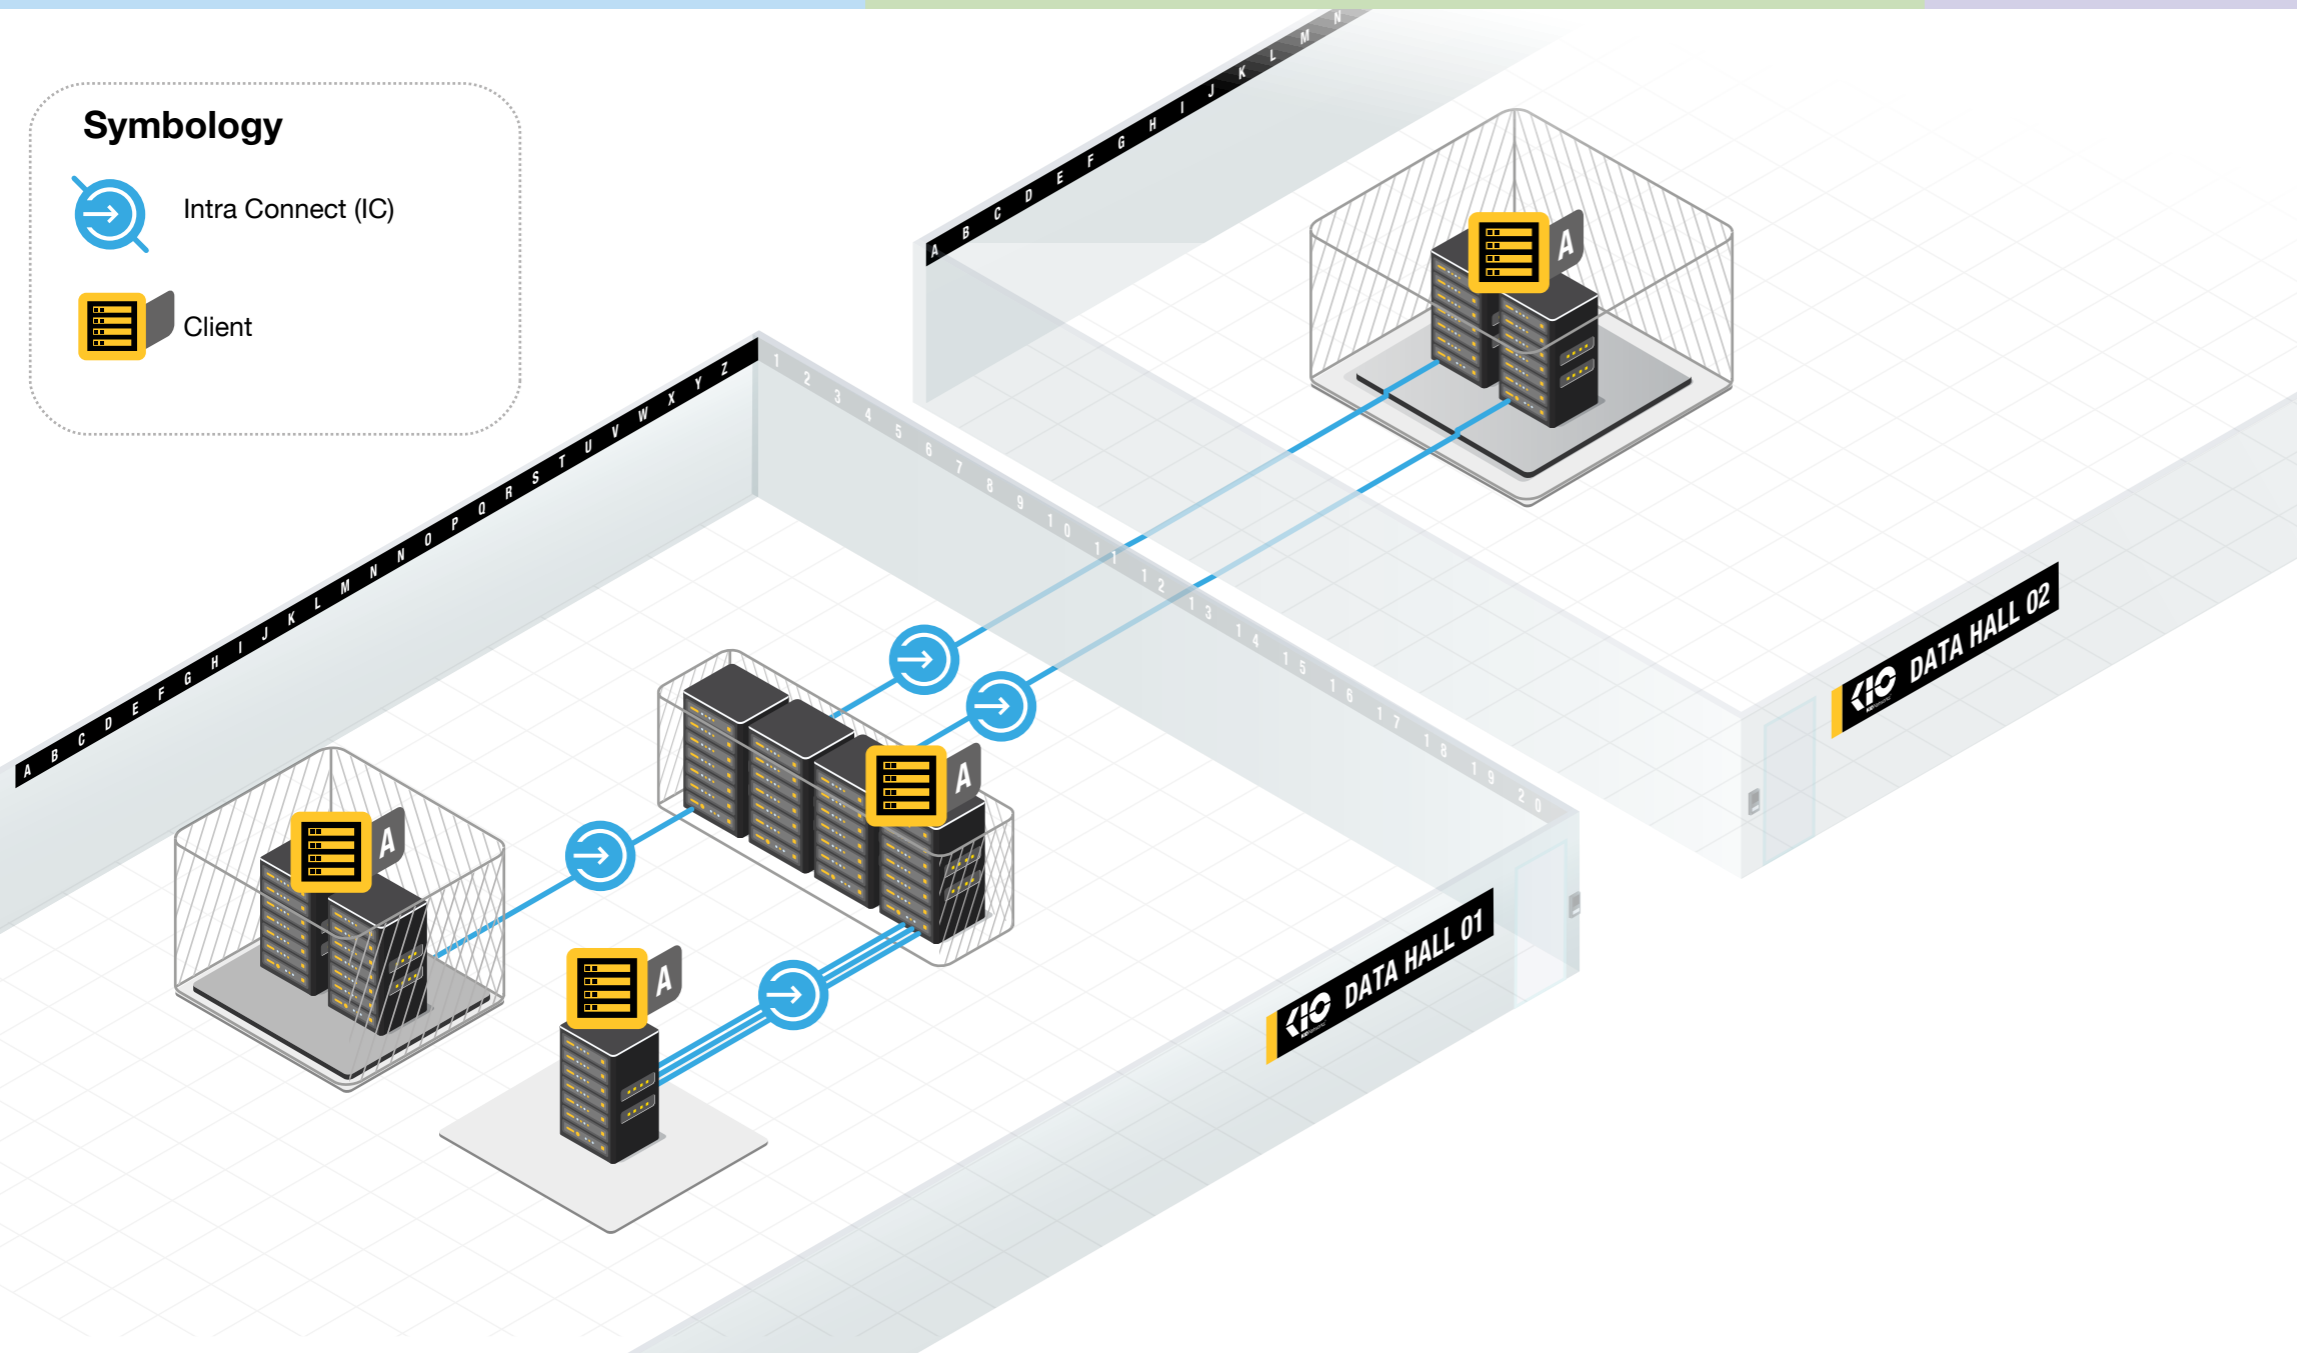

- ▶ Non-Recurring Charge (NRC): installation one-time charge.
- ▶ Monthly Recurring Charge (MRC): not applicable for IC cabling.
- ▶ Minimum contract term of 3 months.

Implementation

- ▶ An standard service request: 1-10 Intra Connects products.
- ▶ Implementation SLA: 72 hrs.
- ▶ Special Projects: A feasibility and delivery time evaluation for special high volume projects or with custom requirements.

Symbology

- Intra Connect (IC)
- Client

Service Levels

- ▶ Availability SLA: 99.999%.
- ▶ Penalty rates are associated to cabling failure specifically of the IC product.

Additional Considerations

- ▶ Additional components like ODFs, Patch Panels, Patch Cords or Jumpers, are not included.

Technical Specifications

Type of material:

Copper wiring Unshielded Twisted Pair (UTP), RJ45 connector, 90 mts maximum.

Multimode/Singlemode optic fiber, LC standard connector, 250 mts maximum.

Availability:

MEX1, MEX2, MEX3, MEX4, MEX5, MEX6, QRO1, PAN1, GTM1, SDO1, BOG1 and MTY1.
